## PROFILE

I am creatively driven. I like bringing ideas, whether mine or others to life and have an interest in moulding user interface. I have recently completed my **BSc in Computer Science** from **University of London** via Singapore Institute of Management with results pending. I have maintained a good work ethic and hope to put my knowledge to good use and would like to prove to myself that I am capable of producing functional and intuitive web applications while also improving and honing my skills.

## PROJECTS

- Developed a real-time chat app using NextJS with persisting chat data using a cloud database over the course of 6 weeks. April - September 2023 - [Real-time chat app](#)
- A productivity app in Flutter as a group Agile Software development project with a programming role April - September 2021
